OVERVIEW

A highly skilled web developer who is comfortable with both front-end and back-end programming. I am responsible for developing and designing front-end web architecture, ensuring the responsiveness of applications, cross-platform optimization for mobile phones, and working alongside graphic designers for web design features.

I also develop back-end website applications creating servers and databases for functionality meeting both technical and consumer needs.

Strong organizational and project management skills, good problem-solving skills, attention to detail, and excellent verbal communication skills are my specific features.

SKILLS

- Front-end languages:
    React / Redux / React hooks / React context
    Vue.js / Angular
    Next.js / Three.js
    HTML / HTML5, CSS / CSS3, Tailwind CSS
    Javascript / JQuery, Bootstrap

- Back-end languages:
    PHP / Laravel
    Node.js / Express.js
    Python / Django

- Android:
    Java, Flutter, React Native

- Databases:
    MySQL / MongoDB

- Payment Process:
    Paypal / Stripe / Google payment

- Cloud Services:
    AWS (Lambda, EC2, S3) / Firebase (Firestore, Real-time Database)

- Other:
    Heroku / Godaddy / Docker / Webpack, Github

EXPERIENCE

Senior Full Stack Developer | Metabit Co (Chuo-ku, Tokyo,Japan) | Full-Time | Remote
Mar 2021 – Jun 2022

- React/Material/Laravel website development. Working as a front-end and back-end developer to create rich web app experiences from wireframes for implement.io. This project has provided challenges such as complex reactive forms, with custom controls, PayPal integration, and multiple dependent API calls managed with RxJS
- Worked with up to 25 client representatives during development providing mentorship to junior collaborators, delegating tasks according to individual strengths to increase team productivity

Front End Developer | HappyFresh (Kuala Lumpur, Malaysia)| Full-Time | Remote
Jul 2019 - Dec 2019

- Developed Front-end using Reactjs/Nextjs.
- Converted Figma design to HTML directly and exported the ReactJs UI using pxCode.
- Developed dynamic website using MERN(MongoDB, ExpressJs, ReactJs, Nodejs) Working on automated microservices development framework to improve fast development and easy onboarding process.

Python Developer | Straits Interactive | Full-Time | Remote
Apr 2018 - Nov 2018

- Discussed technical and design issues with other developers, managers, users, and customers whenever necessary to achieve best solution.
- Worked with Django framework, Continuous Integration environment (Jenkins), SDN, network switches/routers and DevOps a plus.
- Skills: Python (Programming Language), Django, HTML, Git.

EDUCATION

Cambridge Academy for Science and Technology
Master of Science – Information Technology
APR 2014 – June 2017

Somerset School of Science
Batchelor of Science - Computer Science
APR 2007 – May 2012

- Building server-side architecture using PHP MVC Frameworks and Javascript Frameworks as a full stack developer
- Python skills through Django based web applications as a senior web developer
- Database architecture design and programming with MySQL, MongoDB
